1. Notice

10 October 2024

To Electricity Industry Code Participants,

In accordance with section 5.3(a) of the [SWIS Communication Rules](#), the following advises of Western Power's intention to make changes to its Build Pack documentation and upgrade its market facing systems. This Notice will be referenced here within as Change Request #22.

NOTICE

Under Change Request #22, Western Power intends to implement changes to the Build Pack to contemplate B2B transactions, update the WA B2B procedures: customer and site details process, and to update the Streetlights Data CSV File specification.

Western Power plans to publish a new version of the Build Pack on 11 September 2024 and implement the changes on 29 October 2024.

Code Participants will have until 25 September 2024 to provide comment on the Build pack amendments. If no response is received by 25 September 2024 under Clause 5.3 (c) of the SWIS Communication Rules, Western Power will consider the change to be agreed, and will proceed to schedule the release according to the CR#22 notice.

In accordance with section 5.4(a) of the SWIS Communication Rules, all Code Participants will have the ability to test the proposed change in Western Power's test environment from 27 September 2024 through to 21 October 2024.

Code Participants are advised of the change and required to indicate their intention to test by 17:00 WST 23 September 2024 and need to work with Western Power to ensure that the necessary communications and system connectivity for testing is in place by 16:00 WST 26 September 2024.

All Code Participants are encouraged to review the detail of this notice and investigate how the changes will / may impact their systems.

The following schedule is proposed for Change Request #22:

Activity	Date
Change Request First Notice to Market Participants	11 September 2024
Publish updated Streetlights CSV File Specification	18 September 2024
Review & Comments by Market Participants	25 September 2024
Reminder Notice to Market Participants	25 September 2024
Confirm Intention to Test	23 September 2024
Market Participant Testing	27 September 2024 – 21 October 2024
Provide marked up version of Customer and Site Details Process which includes the updated Life Support Equipment (LSE) Notification Process	30 September 2024
Notice to Market Participants of Test Closure	21 October 2024
Market Participant Testing Acceptance	21 October 2024
Publish updated Customer and Site Details Process which includes the updated Life Support Equipment (LSE) Notification Process	14 October 2024
Implementation Notice	22 October 2024
Implementation	25 October 2024
Post Implementation Acceptance	29 October 2024

Western Power will be available to meet if requested to discuss questions that individual Code Participants may have.

Code Participants are invited to submit written comments on the proposed changes to metering.systems.support@westernpower.com.au by no later than 16:00 WST 25 September 2024.

2. Change Request #22

Change Request #22 proposes amendments to Build Pack documentation to contemplate advanced metering infrastructure (AMI) and associated B2B transactions.

Western Power has proposed amendments to support:

- Addition of Email to Customer Details Notification Schema
- Publish an updated version of the Customer and Site Details Process which includes the updated Life Support Equipment (LSE) Notification Process
- Publish an updated version of the Streetlights CSV File Specification

Proposed amendments are detailed in section 3 of this Notice.

3. Proposed Amendments

3.1 Addition of Email to Customer Details Notification Schema

3.1	Section	3.1 Addition of Email to Customer Details Notification Schema	Amendment Type	Addition
	Description	Add non-mandatory email specific field to the Customer Details Schema which will allow for more flexibility when communicating with customers.		
	Proposed Amendment			
	The Customer Details Notification Schema will be updated with a new field to include:			
	Field	Format	Usage: Customer Details Notification	Definition/Comments
	Email Address	Email address	R	The appropriate email address for planned outage notification. The Retailer must use reasonable endeavours to transmit the appropriate email address for the purpose of contacting the customer for supply related issues. Not Required where the site is vacant (refer 2.2.4.d). Legacy collected data will be retained unless overwritten. An agreed back-up process will be included in the change.

3.2 Publish Updated WA B2B Procedures: Customer and Site Details Process which includes the Updated Life Support Equipment Process

3.2	Section	3.2 Publish updated WA B2B Procedures: Customer and Site Details Process which includes the Updated Life Support Equipment (LSE) Process	Amendment Type	<i>Update</i>
	Description	Update the WA B2B Procedures: Customer and Site Details Process which includes the Updated Life Support Equipment (LSE) Process		
	Proposed Amendment			
	The WA B2B Procedures: Customer and Site Details Process will be updated and it will include the updated Life Support Equipment (LSE) Notification Process to ensure consistency and governance. The updated process will include the use of the email address into the Customer Details Notification Schema and it will remove references associated with NEMMCO. The document format will also be updated in line with current formatting and templates.			

3.3 Publish an updated version of the Streetlights Data CSV File Specification

3.3	Section	3.3 Publish updated Streetlights Data CSV File Specification	Amendment Type	<i>Update</i>
	Description	Update the Streetlights Data CSV File Specification		
	Proposed Amendment			
	The Streetlights Data CSV File Specification is being updated. The wattage has been updated in the comment to reference the Price List on the Western Power website, the Lamp Type has been updated in the comments to reference the Price List and other administrative changes have been made. A copy of the updated document is being provided with the Build Pack Change Request 22 Notice.
